As Robert Frost so aptly put it, the road less traveled often makes all the difference.

Make the difference with your tour and convention groups. Include Bridgerland in your plans.

Bridgerland is Sense-sational! It is the perfect place to gather with friends or conduct business meetings.

Over 150 years ago, Jim Bridger chose Bridgerland as his favorite place to rendezvous with his mountain men friends from all over the Rockies.

Times have changed. And so has travel and meeting destinations. Many travel and corporate meeting planners are venturing away from the big cities. They are looking for interesting, beautiful, convenient and value-oriented retreats from their tours and meetings. Bridgerland is just the place!

Located only 80 miles north of Salt Lake City, you can be away from big-city traffic and prices. You can stay in an area that has excellent motel rooms, fine dining experiences, many unique attractions and festivals, downtown art galleries and shops and interesting tour opportunities. And to top it all off, Bridgerland is extremely affordable – low cost motel rooms, convention facilities and dining!

Jim Bridger knew a good thing when he saw it. He knew when to take the road less traveled. You will too. We invite you to be our guests. Experience our hospitality. Enjoy our services and special attractions. Sense the beauty, exhilaration and cultural opportunities that keep people coming back to Bridgerland.

We hope you will find Bridgerland as sense-sational as we do!

See you soon!

Maridene Alexander, Director
